

# Assignment Screenshots

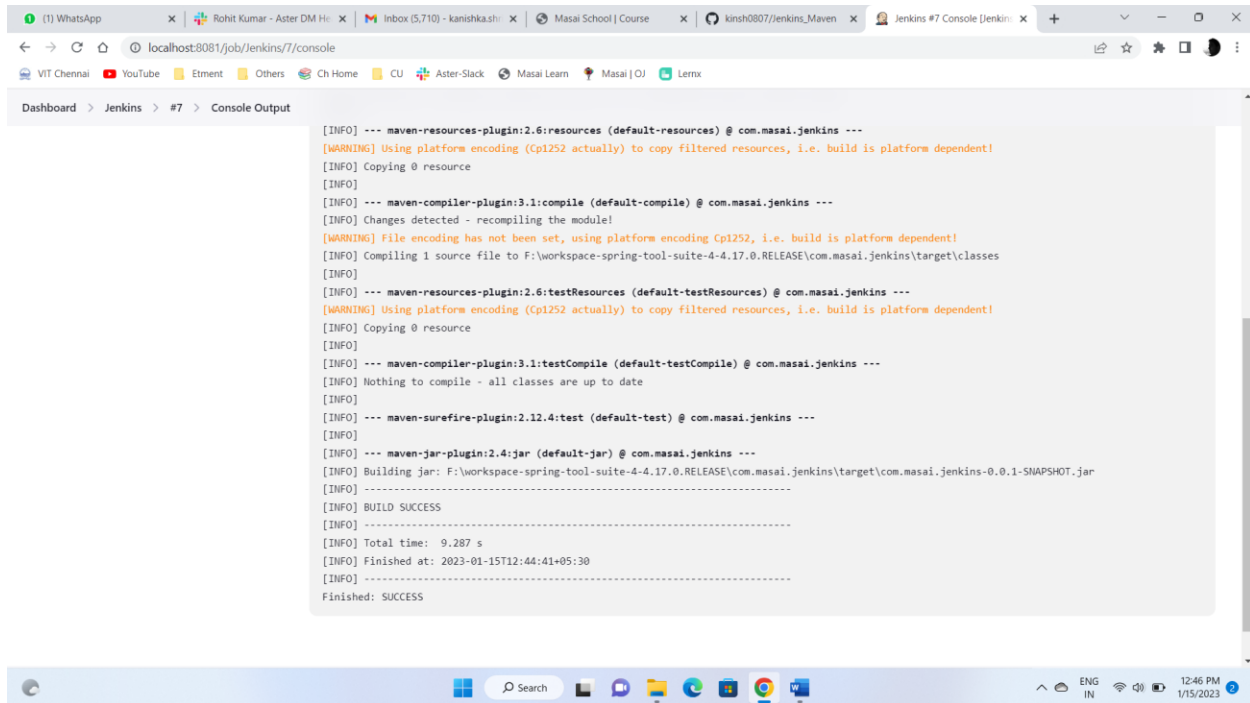

The screenshot shows the Jenkins Dashboard in a web browser. The browser's address bar displays 'localhost:8081'. The Jenkins header includes a search bar, a user profile for 'Kanishka Shrivastava', and a 'log out' button. The left sidebar contains navigation links: 'New Item', 'People', 'Build History', 'Manage Jenkins', and 'My Views'. The main content area features a table with columns for 'S', 'W', 'Name', 'Last Success', 'Last Failure', and 'Last Duration'. A single entry for 'Jenkins' is shown with a success status, a last success time of '1 day 1 hr #4', and a last failure time of '1 day 10 hr #2'. Below the table, there are sections for 'Build Queue' (showing 'No builds in the queue') and 'Build Executor Status' (showing two 'Idle' executors). At the bottom right, links for 'REST API' and 'Jenkins 2.386' are visible.

S	W	Name	Last Success	Last Failure	Last Duration
✓	☁	Jenkins	1 day 1 hr #4	1 day 10 hr #2	15 sec

The screenshot shows the Jenkins Console Output for a specific build. The browser address bar shows 'localhost:8081/job/jenkins/7/console'. The left sidebar has links for 'Status', 'Changes', 'Console Output', 'View as plain text', 'Edit Build Information', 'Delete build #7', and 'Previous Build'. The main content area is titled 'Console Output' and displays a log of build steps. The log starts with 'Started by user Kanishka Shrivastava' and 'Running as SYSTEM'. It shows the execution of a Maven command to clean and compile the project. The output includes several informational messages and two warnings about platform encoding. The final line indicates that the source file is being compiled to the target classes directory.

```
Started by user Kanishka Shrivastava
Running as SYSTEM
Building in workspace C:\ProgramData\jenkins\workspace\jenkins
[Jenkins] $ cmd.exe /C "D:\apache-maven-3.8.7-bin\apache-maven-3.8.7\bin\mvn.cmd -f F:\workspace-spring-tool-suite-4-4.17.0.RELEASE\com.masai.jenkins\pom.xml clean package && exit %ERRORLEVEL%"
